Enfield Civic Centre

ENFIELD COUNCIL

1/5 Enfield Civic Centre

Enfield Civic Centre is home to Enfield Council. Occupying 8 floors of the building, the Council were undertaking a complete refurbishment with a coordinated and phased installation over several months. The objective was to implement a new Agile Working Space environment on each floor. Avant Contracts were one of several firms for the project.

To achieve the client's brief, Avant worked alongside ITC (Main Contractor) and Pellings LLP (Lead Designer). We were responsible for the development, manufacture and installation of lockers, storage walls and soft seating. Although free standing, the lockers were incorporated into the fabric of the layout, so the overall appearance was of fitted units. Each floor had specific colour matched fabrics.

Space planning ensured that lockers and workstations were positioned on the perimeter of each floor. This created a central hub to accommodate formal and informal meeting spaces. We installed "Cocoon Pods" in these areas which offered free standing flexibility.

The overall design concept has enabled the council to shift its culture of working in a positive manner.

- ▶ PLANNING
- ▶ CREATIVE DESIGN
- ▶ MANUFACTURE
- ▶ INSTALLATION

An interchangeable colour palette developed by the Pellings lead design team was carried through all floors creating an exciting and balanced interior solution.

ABOUT AVANT CONTRACTS

Avant Contract Furnishings makes your office work for you. With practical design and innovative planning, Avant will provide an independent "One Stop Shop" service offering exciting, flexible, workplace solutions as well as comprehensive relocation and warehouse storage services.
